Cylinder holder for gas cylinders

Item no. 2070

Robust cylinder holder for the secure fixation of compressed gas cylinders to prevent tipping. The gas cylinder remains standing on the floor and is reliably secured by the holder. The holder can be mounted either to a tabletop or to a wall using two screws (not included). Note: This product is not designed for suspending or hanging the gas cylinder.

- aluminium, powdercoated
- for gas cylinders up to 230 mm Ø
- safety belt with snap buckle
- Cross holes 6,5 mm for wall fixing
- for benches up to 65 mm
